

Kraków 23/IX 97

Dear Batur,

thank you very much for your kind invitation to Altrella. Unfortunately I am unable to come. My health isn't good still, and today, after an examination, I was told that the nature of my troubles is the Parkinson disease (apparently a mild form of it) but still I don't like it. I am a little bit embarrassed to tell you this, but I hope, that after some treatment I will be capable to move again, and even to visit Altrella. Looking forward to this moment, I send you my best wishes

Yours Jan
