Dear Batuz,

As you already know, Wolfgang Ungerer will be one of the MIT students to come to Altzella in June.

The second, a graduate student in the art program is sure: Michael Rakowitz.

In the competition among the history students, I find several attractive candidates. I would be willing to finance the travel of two of them if you are willing to have them. Can you receive four rather than three students?

I will be sending you information about each of the students shortly after the final selection.

Best wishes,

Stanford Anderson
